

Meier Warned About Russia-Georgia Scenario - *in 1991!*

No sooner had the news of Billy Meier's having scooped NASA - **twice, by 32 years** - regarding very recent, important discoveries on Mars (see: http://theyfly.com/newsflash94/UFO_Skeptics_Throw_in_the_Towel.htm), that the world's attention quickly turned to the armed conflict between Russia and Georgia.

While the actual culpability for starting the conflict is being hotly debated in the news, there seems to be little doubt that the *U.S., and possibly Israel, figured in creating provocative conditions in the region.

Amazingly, once again, this situation seems to be precisely what Meier was forewarned about years ago. The following is the English translation of the information given to Meier and first published by Guido Moosbrugger, in German, in **1991** (with emphasis added):

"According to Ptaah's statements, more or less **serious setbacks** are also expected in the freedom efforts of the now-dissolved **Eastern Block** countries. A great deal of what has already been accomplished will most likely be **destroyed**. With great probability, everywhere in those regions where the population is **not yet mature enough** to sustain their newly won freedom, the people will **behave so irrationally** that their **governments will** be left with no alternative but to **tighten the reigns again and take unpopular actions**. Joined with this are the completely ***unlawful interferences and covert influences by western nations and their secret services**. Altogether, these can lead to **bloody conflicts**, causing a chain reaction, which finally brings on the outbreak of a **global war**. So the danger of World War III is, unfortunately, by no means prevented."

Please also note the above information was also published in English in *And Yet They Fly (2001)* and then again in *And Still They Fly (2004)*. Of course, while the original German publication date was 1991, the actual text was written at least a year before that, around 1990, or earlier.

So much of this may actually have been prevented, if people had been paying attention to the, decades long, warnings in the Meier material. But the time is running out before the results of our lack of self-responsibility - as well as ignorance of the workings of the law of cause and effect - take even greater, unimaginable tolls on our world, its countries and all its peoples.

Note what Quetzal told Meier, in the introduction to the *Henoch Prophecies* (<http://theyfly.com/prophecies/prophecies.htm>), in 1987 (emphasis added):

"You apparently never give up hope. Your optimism is honourable and deserves to be heard by human beings, but the way things have developed throughout this century there is not too much hope that human beings of Earth will come to their senses and heed your words. This will then be the case **only when the prophecies prove to be true or, even worse, have already come to pass**. Probably only then will the time come when the defamations against you will end in regard to your contacts with us, although they will long continue to be vehemently disputed by your enemies as well as by pathological know-it-alls and critics who

dismiss them as swindle, lies and fraud. The full truth about our contacts with you will be proven in the distant future, and then mankind will accept our help we offer through you—even when they erroneously assume we come from the seven-star system known to human beings of Earth as the Pleiades.”

Some of the warnings that appear in those prophecies are, perhaps, still preventable, such as this:

“Far in the West, it will be different; the United States of America will be a country of total destruction. The cause for this will be manifold. With her global conflicts which are continuously instigated by her and which will continue far into the future, America is creating enormous hatred against her, worldwide, in many countries. As a result, America will experience enormous catastrophes which will reach proportions barely imaginable to people of Earth. The destruction of the WTC, i.e., the World Trade Center, by terrorists will only be the beginning.”

As I have stated in The Silent Revolution of Truth (<http://theyfly.com/products/products.htm#srot>) my personal mission is to help to prove the prophecies, such as those, wrong. For all of the people who come upon this information - including the many people in the military and in governmental positions who monitor Meier and even my site - I do implore you to take personal responsibility to help to see to it that the madmen of this world don't succeed in destroying it, in their relentless and degenerate pursuit of more and more power and wealth.

Such a pointless pursuit is plainly destined to end in tragedy, for all concerned.
