

# UFO Prophet Right Again?

**LOS ANGELES, CA:** Just days after Michael Horn, the Authorized American Media Representative for the Billy Meier Contacts, appeared on the internationally broadcast Coast To Coast radio show with Art Bell, relating the uncannily accurate prophecies and predictions preemptively published by Swiss UFO contactee Billy Meier, it appears that Meier has been proven right again, unfortunately so in one case.

While millions of listeners heard Art Bell play the role of devil's advocate to perfection, challenging Horn about almost every detail of the proof that he claims authenticates the Meier case, Horn read from prophecies allegedly given to Meier by his extraterrestrial visitors in 1987. In addition to highly disturbing information foretelling enormous destruction to America, if its military policies and governmental leaders are not immediately changed, Horn read the following excerpt from a much more lengthy, and equally ominous, section dealing with massive destruction in Europe:

“And it will be that the fanatics of Islam will rise up and cover the lands of Europe with war, all will shake and quiver.”

Three days later, Spain was struck by terrorists who are now believed to be linked to Osama bin Ladin's Al-Qaeda Islamic terrorist group.

## **Another New Confirmation**

Contrasting the gloomy forecast of worldwide turmoil, should people everywhere not heed the warnings in time, an announcement first made on February 24, 2004, and recently reported again on March 15, regarding the discovery of a new planet beyond Pluto, was shown to have been again preempted by Meier's own foretelling, published in 1978, of the ultimate discovery of not one but two such planets.

## **Bell Confirms Meier's Amazing Accuracy**

While Art Bell maintained a healthy skepticism regarding Meier's prophetic accuracy, he readily admitted that not only were the renowned scientific experts

who confirmed the authenticity of Meier's physical evidence beyond reproach in their credibility but Horn was right when he stated that Meier's prophetic warnings about a half-dozen specific events, including the U.S. attack on Iraq, the increase in Islamic terrorism, the appearance of SARS, the spread of Mad Cow Disease, the renewed public concern over chemical warfare and the near accident at the nuclear power plant near Lyon, France (all predicted by Meier in 1995) were all in Bell's own possession in a book published in 2001...also years before they occurred!

### **Skeptic Shot Down On Air**

The show had a moment of unexpected light comedy when Mr. Vaughn Rees, Case Investigator for the professional skeptics' organization CFI-West, who has the dubious distinction of accepting and subsequently failing Horn's challenge to duplicate Meier's photo and film evidence, tried to claim that the photos of UFO models CFI-West finally published (after three years) should be exempted from being subjected to the same scientific scrutiny as Meier's were! Bell himself made short work of Rees and any credibility he'd hoped to establish with his attempt at redefining scientific standards of proof.

### **Anti-American Rhetoric or Wake-up Call?**

While Bell, and some of his listeners, were clearly upset by the critical tone regarding American policies in Meier's information, Horn tried to point out that, while these were warnings designed to wake us up to take corrective action and, as such, are not couched in pleasant, flattering terms inappropriate to the situation, an equally harsh tone was also directed at numerous other nations and leaders. During this unprecedented, four-hour, in-depth exploration of the Meier information it was noted that, for his troubles, Meier has been the target of unsuccessful assassins a documented 19 times, which, while it may be consistent with the time-honored human idiocy of "shooting the messenger", certainly contradicts the idea that any kind of "hoaxer" would warrant such negative attention.

### **Full Prophecies Now Available**

In addition to the new, comprehensive, two-hour long DVD "The Meier Contacts - The Key To Our Future Survival", Horn also announced that the full English translation of the Henoah Prophecies from 1987, from which the information regarding the Islamic attacks in Europe, the forewarning of the World Trade Center destruction by terrorists and the American-led wars to follow were culled, is now available in the new book "And Still They Fly!" from [www.theyfly.com](http://www.theyfly.com)
